Clean Water Indiana Grant: Remove, Replant, and Restore will fund projects which (1) remove invasive plants that pose a serious threat to the biodiversity of Indiana's forested and riparian ecosystems, (2) replant and restore the site with appropriate native species that accomplish the goals and objectives of each landowner.

HOW TO APPLY

CONTACT

Contact your local SWCD office to discuss your project and set up a site visit.

SITE VISIT

Experienced SWCD staff collaborating on the project will provide technical assistance to each interested landowner by writing a detailed Landowner Invasive Plant Assessment.

APPLICATION

Applications will be accepted year-round and will be ranked and approved by SWCD staff and their Board of Supervisors on a quarterly basis per each year of CWI funding (2017-2019).

FINAL INSPECTION

Technical staff will visit site to check for project completeness.

REIMBURSEMENT

After final inspection, landowners will turn in receipts to SWCD staff. Reimbursements will cover 75% of costs, not to exceed the per acre rate for invasive species removal and \$500 for native planting.

WHO'S ELIGIBLE?

Any landowner or entity in Brown, Greene, Monroe, or Owen County.
